Site Development Permit Application Checklist: Drainage Control Plan (Projects Meeting Minimum Requirements 1-10).

What is a Drainage Control Plan?

A drainage control plan is a full submittal set of plans and associated reports for projects which fall under Minimum Requirements 1-10 of the Pierce County Stormwater Management and Site Development Manual. This type of plan requirement may be used for wide variety of projects including but not limited to; Single family, commercial, subdivision and grading/clearing development activity.

Minimum submittal requirements:

Electronic Documents	Required
☐ **Site Development Drawings**	Yes
☐ **Drainage Report**	Yes
☐ **Erosion Control Report and SWPPP**	Yes
☐ **Maintenance and Source Control Manual/Report**	Yes
☐ **Copies of all Easements & Deeds**	Project Dependent

☐ **SEPA Checklist**
Found on the City of Bonney Lake website: www.ci.bonney-lake.wa.us
This is separate application.

All required electronic documents must be appropriately named and submitted in the order as shown above in order to facilitate processing the electronic submittal.
