CITY OF BONNEY LAKE

Six Year Transportation Improvement Program (2020-2025)

Project categories

Category A – Intersection Improvements (\$15,830,000)

Traffic signalization and channelization improvements at intersections. Category A improvements may be funded by Transportation Impact Fees (TIF), Real-estate Excise Taxes (REET), Gas Taxes, WSDOT, federal or state grants, loans, bonds, developer mitigation, and/or Operating Revenue (COR) funds.

Category B - Roadway Major Improvements (\$29,712,000)

Major roadway improvements, for Collector and Minor Arterial Classified roadways including right of way acquisition when required. These improvements may be funded by city TIF/REET/Gas Tax/COR funds, state or federal grant/loan funding, developer mitigation, and/or WSDOT participation. Projects often combine improvements for environmental compliance, storm drainage, domestic water and sanitary sewer system extensions, roadway widening, bridge, curb, gutter, sidewalks, traffic signalization, lane channelization, street lighting, landscaping, street trees, etc. Also included will be a community involvement element. Category B projects share the same pool of funding sources as Category A projects.

The project phases are as follows:

- Pre-Design/Planning by city or city consultant.
- Environmental Permitting by city or city consultant.
- Right-of-Way acquisition by consultant.
- Design that produces construction plans and specifications by city consultants.
- Advertise and Award construction project by city staff.
- Construction by contractor.
- Construction Management by city staff.
- Project Completion, Closeout, and Acceptance by the city.

Category C - Road Reconstruction, Overlay, Chip Seal, Sidewalk (\$3,990,000)

Roadway maintenance and/or reconstruction of existing pavement with minor drainage, shoulder improvements, signing and channelization, and new sidewalks. Category C projects may be funded by state/federal grant or loan funds, state-shared gas taxes, City operating revenues, developer contributions, SEPA mitigation, and in some cases traffic impact fees.

Category D - Transportation Studies (\$200,000)

Transportation or traffic studies include traffic modeling, comprehensive and subarea transportation planning. Category D projects may be funded by state/federal grant or loan funds, City operating revenues, developer contributions, or SEPA mitigation.

Category E - Trail Projects (\$13,950,000)

Non-motorized transportation facilities including walking trails, bicycle routes, and sidewalk facilities to enhance pedestrian and bicycle safety and mobility. Category E improvements may be funded by Park Impact Fees (PIF), Real-estate Excise Taxes (REET), federal or state grants/loans, bonds, developer mitigation, current operating revenues (COR), and in some cases traffic impact fees.

Six Year Transportation Improvement Program

This is the current list of transportation improvements intended to satisfy the requirements of RCW 35.77. It is not necessarily an exclusive list of transportation-related projects contemplated by the City. Other transportation projects may be identified in additional planning or operating documents of the City, including the City's Comprehensive Plan (community mobility element), long range financial planning model, and adopted budgets of the City. Current revenues are available for very few projects on the list.
